

“Method of the month”: Australian COVID-19-related population changes in 2020

Malcolm Gillies

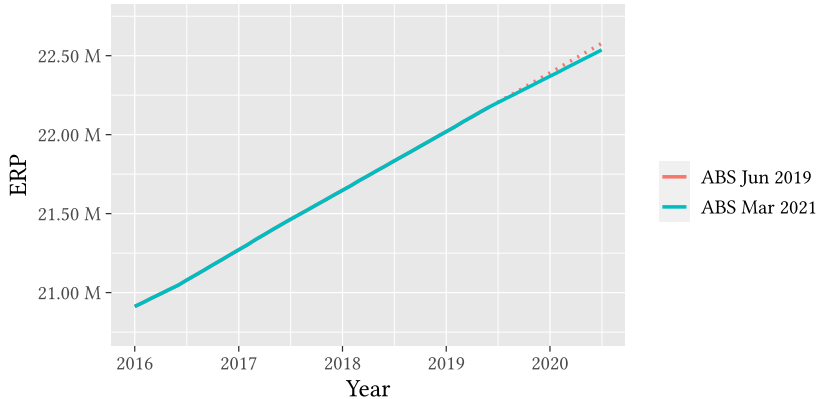

17 Feb 2022

main@f4913be2022-02-16

Wait, did something happen in 2020?

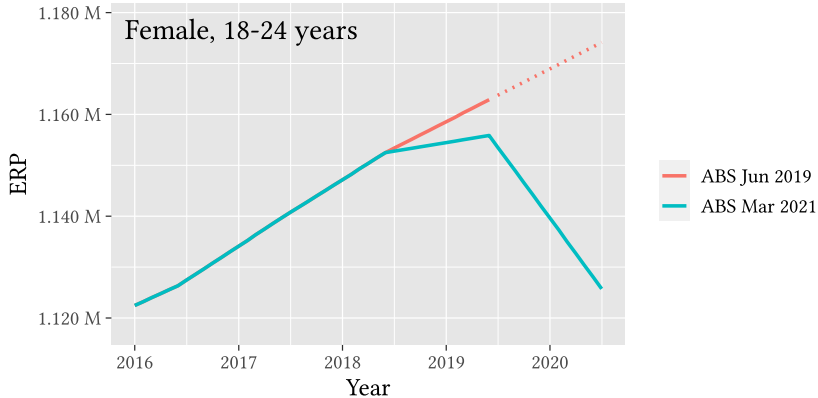

- Surprising interest in comparing e.g.
 - Rates in 2019 vs Rates in 2020
- No problem, ABS will provide the denominators...

ABS Estimated Resident Population: Projected vs Reported 1

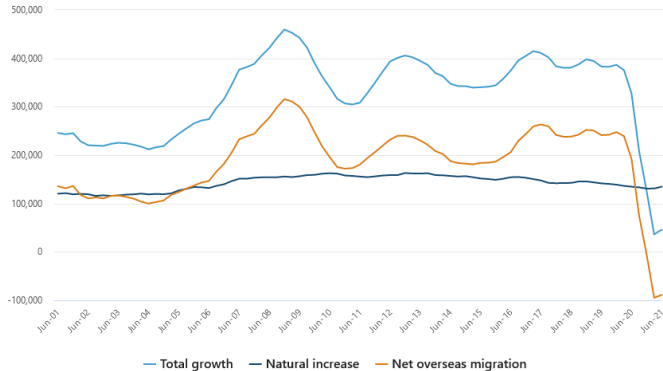

<https://www.abs.gov.au/statistics/people/population/national-state-and-territory-population>

ABS Estimated Resident Population: Projected vs Reported 2

<https://www.abs.gov.au/statistics/people/population/national-state-and-territory-population>

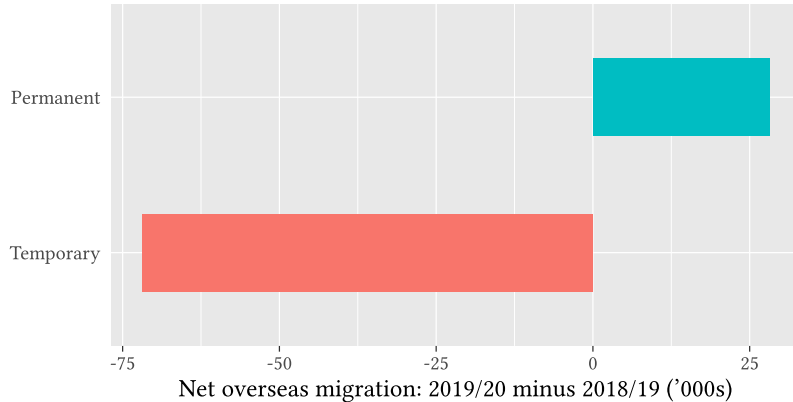

ABS components of population growth

a. Annual components calculated at the end of each quarter.

<https://www.abs.gov.au/statistics/people/population/national-state-and-territory-population>

Net overseas migration: PBS/MBS eligibility?

<https://www.abs.gov.au/statistics/people/population/migration-australia/latest-release>

Finally

- Remember they're *estimated* resident populations
- As 2021 census results become available, 2017–2020 will be adjusted

Thanks

- Juliana
